PHASE 2 OBJECTIVES

- ✓ Alleviate congestion and improve the flow of worshippers.
- ✓ Enhance public safety by adding a new door to facilitate entry and exit.
- ✓ Ensure optimal winter safety through:
 - Installation of an underfloor heating system.
 - Installation of snow and water drainage systems.
- ✓ Enhance aesthetics and comfort by providing:
 - Modern windows that allow natural lighting.
 - An elegant, and aesthetic design that welcomes worshippers and visitors.
- ✓ Install a durable, waterproof shoe rack system with PVC shelves.

أهداف المرحلة الثانية

- ✓ تخفيف الازدحام وتحسين انسيابية حركة دخول وخروج المصلين.
- ✓ تعزيز السلامة العامة من خلال إضافة باب جديد يُسهّل الدخول والخروج، خاصة في أوقات الجُمُع، والعَيدَين، والجَنائز.
- ✓ تحقيق أعلى معايير السلامة الشتوية عبر:
 - تركيب نظام تدفئة أرضية.
 - تركيب أنظمة فعّالة لتصريف بقايا مياه الأمطار والثلوج في الممرات الداخلية للمسجد.
- ✓ تحسين الجماليات والراحة في المداخل والممرات من خلال:
 - إضافة نوافذ جديدة بهدف إدخال الضوء الطبيعي وتعزيز الإضاءة في الممرات والمداخل.
 - تصميم داخلي أنيق يوفر بيئة ترحيبية
- ✓ تركيب نظام متين لحفظ الأحذية، مقاوم للماء، مزوّد بأرفف مصنوعة من PVC عالي الجودة.

Remarks(备注):

- The drawing will be sent to you by your confirmation after getting your payment
- Packing: it will be according to our company's packing standard ,usually is:
B: 1pc/polybag → suitable pieces into a non-fumigation wooden case.
Anyway,we'll let you know as soon as we finish the packing
- No any logo on the products(产品无商标)
- Shipping mark sticker: please kindly let us know if you need
- No any sticker of Made in China on each product.It is ok for us to label one sticker of Made in China on each product,but the color/style/position will be decided by our side
- No any sticker on each polybag
- All the production details will be as per the drawing and the PI that you confirmed

Freight instructions:

- For the weight and CBM: it will be checked after the order is placed by you if you need earlier,but usually it will be checked after the actual products made with the final correct weight and the CBM so that it will be more accurate.
- For the freight,usually for the small order, our price term is EXW that is not including the freight from China to your address.We have following suggestions:
a. You can tell us your express account no.E.G. TNT, UPS or FEDEX or DHL etc., if you have. This will be easier but usually the freight is higher a lot.
b. Some of our buyers find out the agent for themselves , usually the agents are in Guangzhou, Shenzhen or Zhejiang, and then you supply us your agent contact details, then we'll send the goods to your appointed agent's warehouse. Usually this way will be more convenient.
c. if you don't have the above express account no. and if you don't like to do as the 2nd way, we can quote for you via our own cooperated logistics.
- You will need to pay us again the extra freight accordingly if the CBM/weight bigger a lot for the final actual products,because the weight and the CBM now is the estimated datas
- The freight is only valid about 3-4 weeks, so you will need to pay us again the extra freight if it is increased by the shipping agent before the shipment.We'll check the DDP freight again before the shipment
- Once the drawing is finalized, production will proceed as is, and no further changes are allowed. Any changes made may result in additional costs.
- Goods are non-returnable once delivered unless there is an issue with the quality that inspected by the third party, and you will be responsible for return shipping cost if necessary.
